

Svanurinn – Norræna umhverfismerkið

Svanurinn er opinbert umhverfismerki Norðurlandanna sem var komið á fót af Norrænu ráðherranefndinni árið 1989. Meginmarkmið Svansins er að draga úr umhverfisáhrifum af vörum eða þjónustu og auðvelda neytendum að velja umhverfisvænni kosti. Á Íslandi er Umhverfisstofnun umsjónaraðili Svansvottunarinnar og vinnur náið með skrifstofum Svansins á öllum Norðurlöndunum.

Til að málning fái að bera Svaninn þarf hún að uppfylla strangar kröfur um framleiðslu og innihald. Öll hráefni í málningunni þurfa að fá samþykki Svansins. Meðal þeirra krafna sem gerðar eru til Svans merkrar málningar eru að þau mega ekki innihalda nanóefni, þungmálma, efni sem geta verið hættuleg eða valdið skaða á umhverfinu. Eins eru settar strangar kröfur um notkun rotvarnarefna og lífrænna leysiefna. Svansvottaðar vörur Málningar.

Meðfylgjandi síður innihalda lista yfir Svansvottaðar vörur og Vörur sem eru leyfðar í Svansvottuð hús. Eins og sakir standa eru kröfur um Evrópublómíð strangari en Svansin og því ganga þær vörur í Svaninn.

Approved - Merkir Svansvottuð vara

Listed - Varan er samþykkt vara í SCDP í samræmi við gildandi byggingarviðmið (nýbyggingar og endurbætur).
